DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, 7-10 and 24-40 drawn to “determine location/position of mobile device”. Classified 455, subclass 404.2.

Group II, claim(s) 11-18, drawn to “Searching and registering”. Classified 455, subclass 435.1

Group III, claim(s) 19-23, drawn to “distributing advertisement””. Classified 705, subclass 14.

Group IV, claim(s) 41-47, drawn to “location information within group of mobile”. Classified 455, subclass 456.1 and 461.

Group V, claim(s) 48-60, drawn to “Display position on a mobile””. Classified 455, subclass 566 and 457.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III, IV and V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one

Art Unit: 2617

subcombination is separately usable. In the instant case, subcombination **group I** determine location or position of mobile device. See MPEP § 806.05(d).

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.
